Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Fortune Hybrid Seeds Limited ('the Company') as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Fortune Hybrid Seeds Limited
Annexure-B to the Independent Auditors' Report (Continued)

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject

to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the 2013 Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, 12 months period has been considered by the Company as its normal operating cycle for the purpose of classification of assets and liabilities as current and non-current.

c. Use of estimates

In preparation of the financial statements, the Company is required to make judgments, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected. Significant judgments and estimates about the carrying amount of assets and liabilities include useful lives of tangible and intangible assets, impairment of tangible assets, intangible assets including investments, employee benefits and other provisions and recoverability of deferred tax assets.

d. Inventories:

- i. Inventories are measured at the lower of the cost and net realizable value. Cost is determined on "First in-First out" basis.
- ii. Cost of inventories comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition and is net of all allowances and any recoverable duties.

- i) *Revenue from sale of goods* is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, which based on the terms of the contract usually coincides with the delivery of the goods to the customers. Revenue from sale of goods is stated net of trade discounts, returns and sales tax, where applicable.
- ii) *Interest income* is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

h. Tangible assets

The cost of tangible assets includes non-refundable taxes, duties, freight and directly attributable cost of bringing the asset to its working condition for its intended use.

i. Depreciation on tangible assets

The Company has computed depreciation based on useful lives as specified in Schedule II under written down value method. Consequent to the adoption of provisions of Schedule II of 2013 Act, the carrying amount of assets on 01.04.2014 is being depreciated over the remaining useful life of the assets.

j. Foreign currency transactions and balances

Foreign currency transactions are recorded using the exchange rates prevailing on the dates of the respective transactions. Exchange differences arising on foreign currency transactions settled during the period/year are recognised in the statement of profit and loss.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date, not covered by forward exchange contracts, are translated at year end rates. The resultant exchange differences are recognised in the statement of profit and loss. Non-monetary assets are recorded at the rates prevailing on the date of transaction.

k. Employee benefits

Short term compensated absences expected to be paid in exchange of services rendered by employee are recognized during the period when the employee renders the service. Provision for long term compensated absences is made on the basis of actuarial valuation at the balance sheet date using projected unit credit method.

Contributions payable to the recognised provident fund which is a defined contribution scheme is charged to the statement of profit and loss when the contributions to the respective fund is due.

All actuarial gains and losses arising during the period/year are recognised in the statement of profit and loss of the period/year and are not deferred.

l. Borrowing costs

Fortune Hybrid Seeds Limited

Notes forming part of financial statements for the year ended March 31, 2017

(All amounts are in Indian Rupees except for share data or otherwise stated)

Borrowing costs directly attributable to acquisition or construction of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalized to the extent they relate to the period till such assets are ready for its intended use. All other borrowing costs are expensed in the period they occur.

m. Leases

Where the company is Lessee:

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of profit and loss as per contractual terms over lease period.

n. Earnings per share

The basic earnings per share ('EPS') is computed by dividing the net profit after tax for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit after tax for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date.

o. Income Taxes

Income tax expense comprises current tax and deferred tax.

Current tax

The current charge for income tax is calculated in accordance with the relevant tax regulations applicable to the Company. Current tax relating to items recognised directly in equity is recognised in equity and not in statement of profit and loss.

Deferred tax

Deferred tax charge or credit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward losses, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each balance sheet date and are written-down or written-up to reflect the amount that is reasonably certain to be realised. The break-up of the major components of the deferred tax assets and liabilities as at the balance sheet date has been arrived after setting off deferred tax assets and liabilities and where such assets and liabilities relate to taxes on income levied by the same governing tax laws. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in statement of profit and loss.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the period/year in which the (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

Fortune Hybrid Seeds Limited

Notes forming part of financial statements for the year ended March 31, 2017

(All amounts are in Indian Rupees except for share data or otherwise stated)

p. Intangibles and amortisation

Intangible assets are stated at cost less accumulated amortisation and impairment losses, if any. Intangible assets acquired separately are measured on initial recognition at cost. Cost comprises the purchase price and any attributable expenditure on making the asset ready for its intended use.

Intangible assets are amortized on a straight line basis over their estimated useful economic life. The Company uses a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. Amortisation on intangible assets acquired or disposed off during the period/year is provided on pro-rata basis with reference to the date of acquisition or disposal.

The amortisation period and the amortisation method are reviewed at each financial period/year end. If any changes are required in the amortisation period or the amortisation method as a result of such review, such changes are accounted for in accordance with Accounting Standard (AS) 5 - Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

q. Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset which is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, impairment provision is created to bring down the carrying value to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the impairment provision created earlier is reversed to bring it at the recoverable amount subject to a maximum of depreciated historical cost.

r. Provisions and contingent liabilities and contingent assets

The Company creates a provision when there is a present obligation as a result of a past event that requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent Assets are neither recognized nor disclosed in the financial statements.

The above empty space is intentionally kept as blank
